WORK EXPERIENCE

Waiter Ottawa, On | June 2014 - Present

- Provided quality service in a high-stress, fast pace environment to client and responded to clients order via telephone with accuracy and promptness
- Provided a healthy work environment for clients and workers by routinely cleaning and making sure everything was in order from stock of goods to placement of tables and utensils
- Display an understanding of the products being sold and give quality recommendation or solution to any issues or request at hand given by the clientele

EDUCATION

Carleton University, Bachelor of Computer Science | Sept 2015 - Present

- Second Year standing, 10.7 / 12.0 Major CGPA

COOL PROJECTS (See more on GitHub)

Running Man Game (github.com/Tricktionary/RunningManGame)

- A game developed in processing that requires the player to collect coins and solve puzzles in order to progress through the games stages as an AI tries to hunt you down

Personal Website (hiimandy.me)

- Developed using HTML5, JavaScript and CSS with the incorporation of a dynamic interface that scales for mobile and desktop users, and used graphics design elements keeping in mind the users experience to create a website that was quick, responsive and easy to navigate
